We wish to thank those friends and neighbors also the D. of H. A. O. U. W., and I. O. O. F. for their many acts of kindness and for the flowers given during the long illness and at the death of our beloved husband and father, the late Wm. Griffiths.

Mrs. Wm. Griffiths and Family.

Ralph Starkey was fined twenty dollars and costs in the county court Tuesday for killing four prairie chickens out of season. He was arrested Monday by Warden Jones with birds in his possession and when arraigned in the county court plead guilty.

Queen Incubators at Hershey's Hardware Store.

The boilers in the new electric plant were fired up the early part of the week for the purpose of gradually drying out the brick casings. The engines and dynamos have been placed and lined and the smaller parts assembled. It will be several weeks, however, before the plant is in operation.

The Coal THAT SATISFIES.

Dick Shinkle was down from his ranch northwest of town Wednesday transacting business. Dick is feeding 300 head of steers, a couple hundred head of cows and young stuff and a big bunch of horses, and it keeps him reasonably busy handling the hay, alfalfa and cane necessary to keep them going. He is hauling alfalfa from near Hershey.

Ralph Smith is having plans drawn for a new residence which he will build on his lot in the 500 block on west Second street. The present house will be moved to a lot in the south part of town which Mr. Smith has purchased. The new home will be attractive and modern in all particulars.

The legislature has passed a bill prohibiting the giving of tips in hotels, barber shops, Pullman cars or elsewhere in the state of Nebraska. Now if the legislature will pass another bill prohibiting us from spending money in other useless or foolish ways perhaps some of us may be able to accumulate a dollar or two.

MANUAL TRAINING AND DOMESTIC SCIENCE

A complaint frequently registered against our schools is that they are impractical and not in touch with the world into which so many of the boys and girls have to go out so early. All over the country this complaint has been met by the inaugurating of courses in Manual Training for boys and Domestic Science for girls. These courses are carried by special teachers who have been trained for this work in our normal schools and colleges. By Manual Training we mean hand training. The boys are put into a room where each is provided with a work bench and tools. They are then taught the uses of their tools and directed in their work with them. They make all kinds of useful and ornamental articles of wood. The work may be continued by courses in mechanical and architectural drawing, lathe, forge and machine work and from that it is only a step to all forms of industrial work. The girls are taught the principles of food preparation, cooking and serving. This line of work may be continued through sewing, household arts, and on through dressmaking and millinery. Now in the common schools of Nebraska only the most elementary wood work and drawing for the boys and the most elementary cooking for the girls is attempted. But this work should all be taught to the boys and girls of the upper grammar grades and the lower high school grades. It should be extended through the high school where it has not been given before. These branches have become an integral part of all city school systems and most of the cities and towns of Nebraska have inaugurated some such work. Gothenburg, Kearney, Lexington, York, Central City, Grand Island, etc. all have manual training and domestic science departments. The question is frequently asked why the North Platte schools do not have these subjects. The board of education has often taken up the matter but so far it has not seen its way to introduce this department. Lack of room is one cause. The cost of equipping each of the schools with the expensive apparatus was too much to even be considered. The only way in which North Platte can have manual training and domestic science is to provide a central location for this equipment and have all the boys and girls who are to take these subjects attend at this central location. The high school building is located about right but it is so crowded now that there is no room even for their own classes in these subjects. Another building on the high school grounds would solve this problem and give our boys and girls this practical training which has been tried long enough now so that it has passed the experimental stage and has become a necessity.

Harrington Elected Active Manager.

At the annual meeting of the Hibernia Bank & Trust Co., of Denver, M. C. Harrington formerly of this city was elected vice-president and active manager. The capital stock of the bank was increased to \$250,000. Arrangements are being made to erect a new building on a lot owned by the bank at Fifteenth and Champa streets.

Former Lincoln County Man Dies.

Horace Austin, father of Mrs. Harry Dixon and Cash Austin of this city, died in Denver early Wednesday morning. Death was due to a paralytic stroke suffered about ten days ago, and which called Mrs. Dixon and Mr. Austin to Denver, the former being in that city when the father passed away.

The deceased lived on a farm north of the city for a number of years, but moved to Denver six or eight years ago, where he had since resided. Mrs. Austin, his wife passed away last year. Mr. Austin was well known in the city and news of his death was received with regret.

Cash Austin left for Denver Wednesday to be present at the funeral.

Wanted.

Man and woman for general farm work, only farmers need apply, good wages to the right man. Address: D 44 North Platte Tribune.

Hershey Boy Goes to Grand Island.

James Bechon, one of the members of the pitching staff for the fast Hershey team of last year, has signed up for a tryout on the Grand Island state league team. He left this week for Grand Island.

Bechon was secured by that city through the efforts of Jimmy Danze of this city who is acting as scout. Danze watched Bechon's sensational work last season and turned in a glowing report to the management with the result as afore stated. During the tournament here last August Bechon pitched a two-hit game against North Platte and they were neither of them heavy ones, one being a scratch infield hit and the other down the left field foul line. He is known over the west end of the state as a speed merchant and will undoubtedly make a good leaguer.

The second annual banquet of the Et-a-Vrp club was held Monday night at the home of Mr. and Mrs. A. J. Salisbury. The club members and their husbands were delightfully entertained with music and games. Prizes were won by Messdames W. H. Diener, A. J. Salisbury and Messrs. Quinn and Nels Rasmussen. At the close of the evening a nice two course lunch was served. The club will meet Tuesday afternoon with Mrs. W. A. Buchfinch.

W. J. Tiley returned yesterday morning from Grand Island where he visited Wednesday evening in the interests of the Yeomen lodge. He installed a large class at the Yeomen lodge Wednesday evening at Grand Island. He reports that the snow and water in that part are such as to make travel on the public highways almost impossible. Several of the country roads, he stated, even on the Lincoln Highway have not yet been opened since the snow storm. The drifts are quite deep and the melting snow is washing out many ruts which will cause much trouble later.

Base Ball Boys Will Hold Meeting.

A meeting of the base ball fans of the city is scheduled for the near future at which time the possibilities of a team will be discussed. The meeting was planned for this evening but cannot be held on account of the library building being in use.

The prospects of a team for this season are very good. There are now in the city several good players among whom are Jimmy Danze, an excellent back stop, J. J. Gettman, a first class first sacker, and our own local boys. While Danze has an excellent offer from Grand Island to back and play it is not presumed that he will accept it. Mr. Gettman recently opened up a cigar factory here and he will undoubtedly be in the spring lineup.

The outside players that are already on the string are Holliday, a fast infielder who will probably play second base; Grim, the fast little third sacker from Cozad who was here last year, and Artley, the home-run pitcher who contributed so much to North Platte's several defeats last season. These men will sure enough be on the firing line, but as yet there have been no definite arrangements made and a meeting is desired to take up the matter of getting them signed up.

Many of the other towns in this end of the state are going their teams lined up in readiness for the early spring practice. North Platte must get into the swim soon if she wishes to get a chance at the best players that are yet loose. With the men already assured we will have an infield without fault. All of them are artists at their several positions and in addition they can handle the stick very effectively. From all appearances North Platte will have a team that will be able to take any and all comers.
